

PayPerRead Sprint 2 Plan

Jan 27, 2022 Revision 1.0

Release by February 8, 2022

Product Owner: Jake Armendariz

Members: Brendan Teo, Xin Yan, Daniel Wilby

High-Level Goals

Users should be able to visit our demo website using PayPerRead and sign up. Publishers who created an account with us should be able to view the articles they uploaded.

User Stories

As a reader, I want a simple UI for signing up and logging in to my account to add money/manage settings.

- Implement the design into code for readers to sign up and login **3 hours**

Total : 3 hours

As a publisher, I want a secure login in to manage my account and see views/expected pay. 5 points

- Implement the design into code for publishers to sign up and login **3 hours**

Total : 3 hours

As a user, I want a secure authorization format

- Research to authorize financial and user data. **2 hours**
- Implement authorization (session cookies) **3 hours**

Total : 5 hours

As a publisher, I want a place to manage my articles and see how much revenue each article is generating.

- Design a page that list the articles that the publisher has posted. **1 hour**

Total : 1 hours

As a user/vistor, I want to be able to see the front webpage and navigate between pages.

- Design and implement home/welcome page: **3 hours**

Total : 3 hours
