PayPerRead Sprint 4 Plan

Feb 24, 2022 Revision 1.0
Release by March 8, 2022
Product Owner: Jake Armendariz
Scrum Master: Daniel Wilby
Members: Brendan Teo, Xin Yan, Daniel Wilby

High-Level Goals

In Sprint 4 we want to finish our MVP in time for our final presentation. This requires us to finish managing account pages and to improve our documentation. We plan to present desktop and mobile versions of our site.

User Stories

- Manage Reader Account: As a reader, I want to be able to add money to my account or change my existing settings such as adding a new card or deleting my account. **15 points**
    - View purchase history.
    - Add money to my account via credit card.
- Manage Publisher Account: As a publisher, I want to be able to see my articles, their view count and my current account balance. **13 points**
    - View Articles and their view count
    - Deposit current balance into account.
- Improved Dummy Site: As a customer, I want a demo to see how the service works. **13 points**
    - Improved dummy site css (two article's and home page to click either of them)
- Mobile View: As a customer, I want to be able to visit the payperread site from my phone. **8 points**
    - CSS redesign to use more bootstrap
- As a publisher, I want to be able to view information about how to integrate PayPerRead to my website. **5 points**
    - API docs for integrating payperread to one's website.

Total : 54 points
